

## About Us

NatureWorx is a unit established by the Chrysalis Academy to offer outdoor, adventure leadership and therapeutic experiences to the general public, all academy students, graduates, partners and other similar youth development organisations.

## Why Choose US

Our campsites are surrounded by mountains, forestry, large dams, and some of the Cape's unique fauna and flora.

Nature is a powerful healing space and therefore our programmes are intentionally designed to use the natural environment in a way that enhances personal development, leadership skills and inner healing for all. All activities are supervised by qualified personnel ensuring an excellent standard of safety and service.
